Single, Two Family & Townhouse Dwelling RENOVATIONS & NEW BUILDING PERMIT PACKAGE (Includes repairs and additions)

Applicable Codes: 2007 NYS Residential Code

1. SITE PLAN (required if attached garage is to be removed or renovated to other use)
 - North arrow
 - Lot dimensions--all sides
 - Names and locations of all adjacent streets
 - Setback dimensions--front, rear, and all sides
 - Outside building dimensions and distances between buildings on building site
 - Driveways, exterior stairs, landings, patios, and decks
 - Location, type, and elevation of any retaining walls
 - Size and location of any easements or right-of-ways
 - Locations of proposed and existing structures

2. BUILDING PLANS (two complete sets required) Renovation plans must reference NYSRC Appendix J.
 - Climatic & Geographic Design criteria must be shown on plans for NY zip 12590
 - Cross sections drawn SPECIFICALLY for this structure with materials to be used.
 - Floor plan layouts and use of all rooms including basement (include future uses)
 - Complete dimensions of all rooms, decks, porches, landings, stairs, cantilevers, bearing walls, and column locations
 - Ceiling heights all levels
 - Sizes and types of doors and windows (showing required safety glazing)
 - Light, ventilation and egress calculations and requirements for all rooms
 - Window well dimensions for emergency escape windows below grade
 - Fire separation between house and garage
 - Guardrail height and pattern
 - Stairway landings, rise, run, handrail, and headroom heights for interior and exterior stairs
 - Building elevations with finish grade line on all sides(exterior views)
 - Attic and crawl space ventilation and access
 - Typical footing size, depth, and reinforcement
 - Foundation wall height, thickness, and reinforcement
 - Foundation sill and anchor bolts
 - Wall material, stud size and spacing, wall sheathing, interior finish, weather barrier, exterior finish, and masonry veneer
 - Floor sheathing
 - Solid blocking
 - Roofing material and sheathing
 - Framing details
 - Grade and species of lumber
 - Size and material of all beams, headers, and columns
 - Rafter size, spacing, spans, and ties and/or truss layout
 - Joist size, spacing, and spans(engineered joists, beams, etc. must be specifically noted by manufacturer and model)

3. ELECTRICAL DETAILS

All light and fan locations GCFI's indicated Smoke detector locations

Smoke Detectors

note: In any renovation smoke detectors must be installed as per the following:

§RR317.1.1 Alterations, repairs, additions and conversions. When interior alterations, repairs, additions or conversions requiring a permit occur, or when one or more sleeping rooms are added or created in existing dwellings, the individual dwelling unit shall be provided with smoke alarms located as required for new dwellings; the smoke alarms shall be interconnected and hard wired.

1. Smoke alarms in existing areas shall not be required to be interconnected and hardwired where the alterations or repairs do not result in the removal of interior wall or ceiling finishes exposing the structure, unless there is an attic, crawl space or basement available which could provide access for hard wiring and interconnection without the removal of interior finishes.

4. PLUMBING DETAILS (a separate plumbing permit will be required)

Location of all plumbing fixtures including layout for future fixtures

Floor drains, water heater, clothes washer and dryer locations

5. MECHANICAL DETAILS (a separate heating permit will be required)

Furnace location Combustion air location

* Mechanical sizing information-use attached form

6. ENERGY CODE ANALYSIS

* See Chapter 11 of NYS Residential Code

7. DEPARTMENT APPROVALS

Water & Sewer Department

Zoning Department

Planning Board

8. PLAN REVIEW to be completed by the design professional (see office, NYSDOS or Village of Wappingers Falls website for plan review packet)

Plan review packet completed

9. 9-1-1 Address Form for new construction

10. **WORKERS' COMPENSATION and CERTIFICATE OF LIABILITY** – Proof of insurance must be submitted from the contractor and/or homeowner at the time of the application.

a) Contractors **MUST** submit Certificate of Workers Compensation (not acceptable on Accord forms) or Affidavit in lieu thereof---signed and stamped by Workers Compensation Board.

b) Homeowners doing their own projects **MUST** fill out form BP-1 (included in packet) and have notarized.

d) If contractor is applicant, the contractor **MUST** provide a letter from the homeowner authorizing him to file for Building Permit.

11. **All applications MUST be complete before review by a Building Inspector.**

Be sure to sign and date all sheets in the permit package that require a signature.

**VILLAGE OF WAPPINGERS FALLS
APPLICATION FOR A BUILDING PERMIT**

IMPORTANT NOTICES: READ & SIGN.

1. Work conducted pursuant to a building permit must be visually inspected by the Code Enforcement Office and must conform to the New York State Uniform Fire Prevention and Building Code, the Code of Ordinances of the Village of Wappingers Falls and all other applicable codes, rules or regulations.
2. It is the owner's responsibility to contact the Code Enforcement Office at 845-297-5277 -- Monday through Friday from 9:00 a.m. to 3:30 p.m. at least 48 hours before the owner wishes to have an inspection conducted. More than one inspection may be necessary. This is especially true for "internal work" which will eventually be covered from visual inspection by additional work (i.e., electrical work later to be covered by a wall).

DO NOT PROCEED TO THE NEXT STEP OF CONSTRUCTION IF SUCH "INTERNAL WORK" HAS NOT BEEN INSPECTED. Otherwise, work may need to be removed at the owner's or contractor's expense to conduct the interior inspection. Close coordination with the Code Enforcement Office will greatly reduce this possibility.

3. **OWNER HEREBY AGREES TO ALLOW THE CODE ENFORCEMENT OFFICE TO INSPECT THE SUFFICIENCY OF THE WORK BEING DONE PURSUANT TO THIS PERMIT, PROVIDED, HOWEVER, THAT SUCH INSPECTION(S) IS(ARE) LIMITED TO THE WORK BEING CONDUCTED PURSUANT TO THIS PERMIT AND ANY OTHER NON WORK-RELATED VIOLATIONS WHICH ARE READILY DISCERNIBLE FROM SUCH INSPECTION(S).**
4. New York State law requires contractors to maintain Worker's Compensation and Disability Insurance for their employees. No permit will be issued unless currently valid Worker's Compensation and Disability Insurance certificates are attached to this application or are on file with the Bureau of Fire Prevention and Inspection Services. If the contractor believes he/she is exempt from the requirements to provide Worker's Compensation and/or Disability Benefits, the contractor must complete form BP-1 attached hereto.
5. If a Certificate of Occupancy is required, the structure shall not be occupied until said certificate has been issued. Section 64-9 (a) Village Code
6. Work undertaken pursuant to this permit is conditioned upon and subject to any state and federal regulations relating to asbestos material.
7. This permit does not include any privilege of encroachment in, over, under, or upon any city street or right-of-way.
8. The building permit card must be displayed so as to be visible from the street nearest to the site of the work being conducted.

I, _____, the above-named applicant, hereby attest that I am the lawful owner of the property described within or am the lawful agent of said owner and affirm under the penalty of perjury that all statements made by me on this application are true.

VILLAGE OF WAPPINGERS FALLS

POLICY ON CONSTRUCTION INSPECTIONS

Inspections are required under NYS and Village Law. The following inspections are required to be scheduled by the contractor and/or property owner at a minimum 24 hours BEFORE the inspection is needed. In some cases more time is required before an inspection takes place. (see below) Failing to schedule required inspections is a violation of Village Law and legal action may be taken against you and/or a STOP WORK ORDER issued if you fail to schedule the required inspections.

FOOTINGS –When the excavation for footings is completed and before footings are poured. Soil bearing tests are the responsibility of the homeowner/contractor. Must call to schedule **48 hours BEFORE pouring concrete in order to allow for corrections.**

FOOTING DRAINS – Before backfilling foundation.

FOUNDATION WALLS – When the foundation forms (for poured walls) have been erected, and before any backfilling has taken place. **48 hours BEFORE pouring.** Block walls may require intermittent inspections for reinforcing rods or other details that may be included on a designed plan. Also, for block walls schedule an inspection before back-filling.

CONCRETE FLOORS & SLABS – **48 BEFORE pouring.**

UNDERGROUND & ROUGH PLUMBING – DWV requires an air test of 5psi or a water test (system being tested filled to at least 10 feet above that system with water), either test holding for at least 15 minutes. **Water-supply** required to be proved water tight under a water pressure not less than the working pressure of the system or by an air test of not less than 50 psi. Water used for testing must be from a potable source. **Backflow devices** require an initial inspection and test and must be inspected and tested at least annually. These devices are inspected by Third-party inspectors (contact the office for a courtesy list of inspectors or visit the NYSDOH web-site.)

FINAL PLUMBING – DWV fixtures must be filled and prove water tight. Water-supply and Backflow devices (see above)

FRAMING – When all framing has been completed and prior to the installation of any wall finishes. Inspectors will check for fire caulking and/or Fire – rated assemblies.

INSULATION – When insulation and vapor barrier is installed and before wall finishes.

MECHANICAL - Solid fuel burning heating appliances, chimneys, flues or gas vents. ANY of the previous that will be concealed in walls or by finishes must be inspected prior to those walls or finishes being applied or installed. This includes clothing dryer vents.

FINAL – When all work is complete and before any occupancy of building or structure. Electrical, plumbing and fire inspections must also be completed.

NO CERTIFICATE OF OCCUPANCY will be issued for any building permit until all required inspections have been completed and work accepted.

Fire Inspector, Building Inspector, Code Enforcement Officers, Zoning Administrator and Plumbing Inspector can be reached at 297-5277. Electrical Inspectors are third-party inspectors and are listed below.

Affidavit of Exemption to Show Specific Proof of Workers' Compensation Insurance Coverage for a 1, 2, 3 or 4 Family, Owner-occupied Residence

****This form cannot be used to waive the workers' compensation rights or obligations of any party.****

Under penalty of perjury, I certify that I am the owner of the 1, 2, 3 or 4 family, **owner-occupied** residence (including condominiums) listed on the building permit that I am applying for, and I am not required to show specific proof of workers' compensation insurance coverage for such residence because (please check the appropriate box):

- I am performing all the work for which the building permit was issued.
- I am not hiring, paying or compensating in any way, the individual(s) that is(are) performing all the work for which the building permit was issued or helping me perform such work.
- I have a homeowners insurance policy that is currently in effect and covers the property listed on the attached building permit AND am hiring or paying individuals a total of less than 40 hours per week (aggregate hours for all paid individuals on the jobsite) for which the building permit was issued.

I also agree to either:

- ◆ acquire appropriate workers' compensation coverage and provide appropriate proof of that coverage on forms approved by the Chair of the NYS Workers' Compensation Board to the government entity issuing the building permit if I need to hire or pay individuals a total of 40 hours or more per week (aggregate hours for all paid individuals on the jobsite) for work indicated on the building permit, or if appropriate, file a CE-200 exemption form; OR
- ◆ have the general contractor, performing the work on the 1, 2, 3 or 4 family, **owner-occupied** residence (including condominiums) listed on the building permit that I am applying for, provide appropriate proof of workers' compensation coverage or proof of exemption from that coverage on forms approved by the Chair of the NYS Workers' Compensation Board to the government entity issuing the building permit if the project takes a total of 40 hours or more per week (aggregate hours for all paid individuals on the jobsite) for work indicated on the building permit.

(Signature of Homeowner)

(Date Signed)

(Homeowner's Name Printed)

Home Telephone Number _____

Property Address that requires the building permit:

<p><i>Sworn to before me this _____ day of</i></p> <p>_____.</p> <p>_____ <i>(County Clerk or Notary Public)</i></p>
--

Once notarized, this BP-1 form serves as an exemption for both workers' compensation and disability benefits insurance coverage.
